PD-200092

REMARKS

It has come to our attention Figures 4 and 5 of Application No. 09/594,374 were inadvertently switched with Figures 4A, 4B and 5 of Application No. 09/594, 375 at the time of filing. Because the two applications are related, they were both incorporated by reference with each other. The description set forth in the respective applications, as presently amended, corresponds with the proper figures as submitted herewith.

Applicants respectfully believe that because the description is supported in the specification, and since each application was incorporated by reference into the other, no new matter is presented by placing the proper drawings with the proper case.

To avoid further confusion, applicants have enclosed a clean, complete set of drawings for the above application.

We also note that the application title for this application was inadvertently duplicated from Application No. 09/594,375. We are requesting that the title be corrected to read COMMUNICATION SYSTEM AS A SECONDARY PLATFORM WITH FREQUENCY REUSE IN A NON-BLOCKING MANNER. It is submitted that the application as filed clearly supports the new title.

Based on the above, we respectfully request entry of the foregoing amendments.

Should there be any questions regarding this matter, please contact the undersigned.
